

Arizona Report of Public Agency Performance on Graduation Rates for Students with IEPs

Indicator 1: Graduation Rate

Percent of youth with IEPs graduating from high school with a regular diploma.

Measurement

Arizona uses a four-year cohort. Any student who receives a traditional high school diploma within the first four years of starting high school is considered a four-year graduate. A four-year rate is calculated by dividing the sum of all four-year graduates in a cohort by the sum of those who should have graduated and did not transfer to another qualified educational facility or die. Students who receive a diploma in the summer after their fourth year are included as part of the graduation cohort. Students who are dropouts or who obtain a Graduate Equivalent Diploma (GED) are not considered graduates. Further information regarding the calculation of graduation rates for Arizona can be found on the ADE website at www.ade.az.gov/researchpolicy.

Data

The data used for this Indicator are from the 2009 cohort. The data pertain to all school districts, charter schools, and other public education agencies (PEA) that award high school diplomas. It is the same data as reported to the United States Department of Education under Title I of the Elementary and Secondary Education Act (ESEA). The State target for students with IEPs is the same target as for all students.

A PEA listed with an asterisk (*) means it had fewer than 10 students with IEPs who were in the 2009 cohort. In these instances, the data are not reported to ensure confidentiality.

State Target: 80%

State Results: 64.9%
